OUR TOILET SEATS

Hygiene is just as important as appearance for Croydex which is why our range of anti-bacterial treated toilet seats are sure to make your bathroom a safer place. With a range of colours and finishes available there's something for every bathroom.

The wide range of adjustability ensures the hinges will always align with the holes in your toilet pan and the seat can also be installed from above or below the pan so it "always fits".

Collapsible supports hold the hinges off the toilet pan while you align the seat. Once pressure is applied, the adhesive pads beneath the hinges grip the toilet pan so it "never slips".

PEEL
Peel off the protective film from the grip pad.

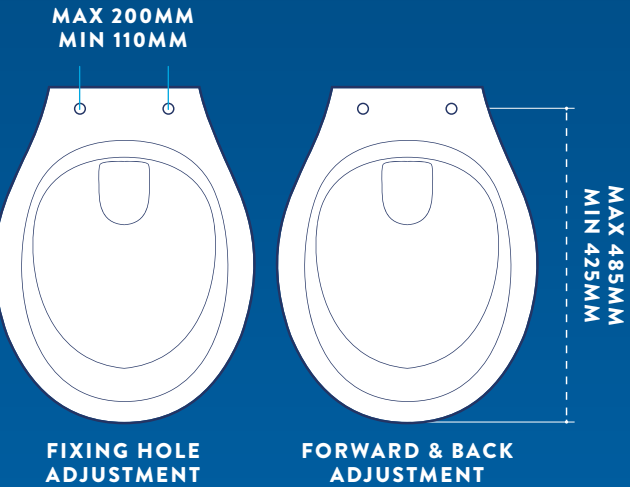

FIX
Position the seat, press the hinges in place and tighten bolts for a sturdy no slip installation.

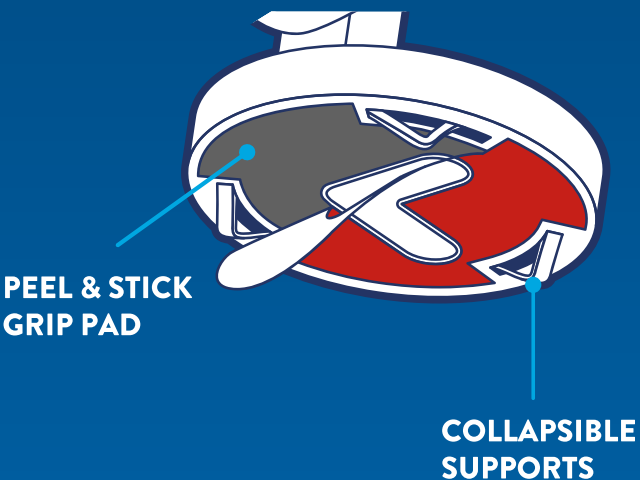

CLIP
Clip the hinge covers in position and you are ready to go, it couldn't be simpler!

ALWAYS FITS

NEVER SLIPS

*
Seat and lid are made from 100% post-consumer recycled plastic

ADJUSTABILITY & DIMENSIONS

The seat lid and ring are made from 100% recycled polypropylene reducing CO2 emissions by 66% compared to virgin plastic material. The hinges are not recyclable.

Anti-bacterial treatment helps reduce the spread of germs and bacteria.

Fixings allow you to fix your toilet seat from either above or below for ease of installation.

Soft close hinges prevent the seat from slamming closed.

Allows the seat to be removed easily for cleaning.

MAKING THAT DIFFERENCE
This Croydex toilet seat is made from post consumer recycled plastics, saving on fast depleting landfill space. Less plastic in landfills means less emission of common landfill gases, like methane and carbon dioxide – both of which cause environmental damage.
Recycled and recyclable materials reduce the need for new materials saving energy and carbon in the process.

SHOWERS & SHOWER ACCESSORIES

Croydex's extensive collection includes everything from overhead showers to adjustable wall brackets and boasts both attractive styling and reliability. So why not choose from this impressive selection of products to refresh and rejuvenate your bathroom.

LOW WATER PRESSURE RUINING YOUR SHOWER EXPERIENCE?

Complete with all the essentials, this contemporary collection takes away the guessing game when it comes to pairing up showering accessories and resolves the problem of low pressure systems. The difference is clear when you compare your current handset with a Presion on the 'Upside Down' test, there is no doubt that a Presion will give your shower the boost it needs.

Easily installed using our innovative Flexi-Fix system, a full shower set can be fitted using a 'no drills' adhesive or if you prefer, you can fix to previous fixing holes to prevent drilling more holes into your tiles.

With separate hoses, a variety of shower heads or a full shower set including a riser rail, a Presion shower is the perfect way to shower your bathroom with love.

Uninspiring and expensive showers are a thing of the past with the Aqua Air™ showering products from Croydex.

Aqua Air™ products produce a bigger and softer water droplet to enhance and improve your showering sensation and pleasure, whilst also reducing your water consumption with its unique water saving device.

How Aqua Air™ works is simple – water flowing through the shower head draws in air, which is then mixed with the water. This creates an enhanced, volumised showering sensation and lowers water consumption considerably.

In fact, Aqua Air™ shower handsets can save up to 50% water when compared to similar standard shower handsets.

SAVE
WATER
SAVE
MONEY

EASY INSTALLATION

Unscrew your existing shower head from the shower hose and discard old washer. Clean threads on shower hose.

Fully insert the Aqua Air™ cartridge and position the washer supplied in the connector of your shower hose and attach it to the shower head. Do not over-tighten.

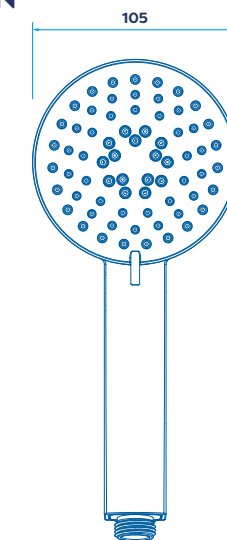

To retain the best quality finish, clean product regularly with a soft damp cloth. Do not use abrasive or chemical cleaners, as these may damage the product.
